Media Release
Cargolux adds Jakarta to global network

Luxembourg, 26 June 2019 – Cargolux is pleased to announce it has just launched a brand new service to Jakarta, the 16th destination on the company’s Asia-Pacific network. The inaugural flight took place on June 23rd and the aircraft was welcomed by a traditional water salute following touchdown.

An official ceremony was organized after the arrival of LX-ECV to celebrate the introduction of the LUX-CGK route. The new frequency connects Luxembourg to the Indonesian capital once a week. The flight leaves the Grand-Duchy on Sunday and arrives in Jakarta on Monday. The rotation then continues through Hong Kong and Ashgabat before returning to Luxembourg on Tuesday morning.

Cargolux is the only cargo carrier to offer a direct main deck connection between Europe and Indonesia. This prime position, coupled with the company’s fleet of 747 freighters, allows the company to cater for a wide variety of commodities, as well as off-size freight such as oil and gas industry equipment, machinery, spare parts or aircraft engines. The main cargo transiting through the area will include apparel, footwear, pharmaceuticals perishables and live animals.

For Domenico Ceci, Cargolux’s Executive Vice-President Sales & Marketing, adding Jakarta to the network is a welcome opportunity: “This new frequency contributes to enhancing our service offering in the South-East Asian region and better connecting us with our customers in the area. Jakarta is an influential commercial center, and we look forward to building local partnerships and furthering the city’s establishment as a global business gateway.”

The thriving Indonesian megalopolis is the world’s second largest urban agglomeration and home to the ASEAN secretariat, making it an attractive commercial destination. With prime geographical location in a dynamic region, Jakarta is a meaningful addition to Cargolux’s worldwide network. The weekly scheduled all-cargo flight will further strengthen Cargolux’s footprint in the Asia-Pacific region and enable the development of commercial relations between Europe and Indonesia. Customers in Jakarta will have the opportunity to benefit from the airline’s extensive road feeder services from Luxembourg hub to a vast choice of European destinations.

Cargolux has actually been doing business in Jakarta for over 23 years, mostly through partnerships and interline agreements so far. The airline did operate 4 charter flights, 2 inbound and 2 outbound, to CGK in 2018 ahead of the Asian Games.

About Cargolux Airlines International
Cargolux, based in Luxembourg, is Europe’s leading all-cargo airline with a modern and efficient fleet composed of 14 Boeing 747-8 freighters and 16 Boeing 747-400 freighters. The Cargolux worldwide network covers over 75 destinations on scheduled all-cargo flights. The company has more than 85 offices in over 50 countries, and operates an extensive global trucking network to more than 250 destinations as well as full and part-charter services. Cargolux also offers third-party maintenance at its modern two-bay maintenance hangar in Luxembourg. The company is specialized in B747 line and hangar maintenance up to and including C-Checks. It offers a range of specialized maintenance services and holds line maintenance approval for 777 aircraft. The Cargolux Group employs over 2,000 staff worldwide.
