Cargolux goes live on cargo.one, CargoAi and WebCargo by Freightos to enhance digital offer

Luxembourg, 05 December 2024 – Cargolux, the Global Cargo Carrier of Choice, has joined the cargo.one, CargoAi and WebCargo by Freightos marketplaces to enhance its digital quote and booking offering. The marketplaces will allow Cargolux to increase its “speed to market” capabilities offering customers swift, easy, and direct access to booking capabilities.

“As the demand for digital processes grows, we are intent on embracing change and broadening our digital reach. Joining marketplaces offers an additional, intuitive tool for our clients to book capacity that matches their requirements. This tool will not only enhance customer experience, it will also allow Cargolux to strengthen its market footprint”, says Mathieu Weber, VP Digital Sales & Marketing.

“The partnership with marketplaces is the latest step in Cargolux’s wide-ranging Sales Digitalization program. Service excellence has always been central to the Cargolux philosophy and this initiative is an additional step towards seamless and tailored service”, says Domenico Ceci, EVP Sales & Marketing.

The airline continues to optimize its resources and embrace innovation to meet evolving customer requirements. This new offer fully supports Cargolux’s digital transformation, a journey that aims to connect ever more efficiently and seamlessly with its clients.

After an initial launch in the Benelux and Germany, availability on marketplaces will be gradually expanded to cover other countries and geographical regions.
